### Report on Meeting held on 17<sup>th</sup> June 2022

A short General Meeting held in the Auditorium at the Doylo on Sunday 17/6/22 was followed by a Caravan Safety session conducted Police Sergeant Matt Rees from the Lake Macquarie Highway Patrol.

It was great to be able to welcome all the visitors and the committee hope that all who attended found the information helpful.

When available I will include some of the diagrams in the Newsletter.

This is the second time Matt has conducted one of these helpful sessions. I am sure some of those in attendance went home to check a few things out.

This letter has been sent from Janis Treacy

### **Look What you have done**

I sat down the other day and did a quick calculation of what you the members of TLC have donated to John Hunter Children's Hospital, and I think it is about \$1200.00. Below is a list of the things that have been bought with that money.

Things that can be reused.....AFTER cleaning. Baby rattles, course and effect toys, Lego, cot mobiles, stacking toys, texters, NUNO (cards which are laminated,) games like connect 4, these things that are handed out to children then returned and cleaned. Not all toys get returned and things get broken there for they have to be replaced. This is what your donations go towards.

Things that CANNOT be reused      Colouring books, stickers, straws, cupcake patties, pipe cleaners, bubbles, paper plates, play dough, craft packs, masks, colour pencils, beads, match sticks. Plastic seal bags to place crafts into All these items cannot be reused and are replaced. They don't get thrown away the kids take them home.

To give the children something to do while they are sick is amazing even if it takes their mind off the fact they are in hospital for just half an hour it is worth it, to see the smile on their faces is priceless I can't thank you enough for donations over the past few years you are amazing I just wanted you all to know YOU ARE MAKING A DIFFERENCE in helping a child go home and you should all be very proud of what you have done.

Janis Treacy

On Sunday 19<sup>th</sup> June, \$145.00 was donated by those attending to the John Hunter Children's Hospital for the purchase of playdough and craft materials.

**Subject:** Swift cooktops and ovens

To all NSW club members,

If you have or know of persons with a caravan, please take notice or pass on the stop use of Swift 500 cooktops and ovens

**Immediate action** is to isolate the gas at the isolation valve (usually a yellow handle) to the stove / cook top usually in the cupboard below or near the appliance

Please see below notice

Background, two caravans have had serious gas explosions due to a manufacturing fault with in the cook top

## SWIFT 500 SERIES INCIDENT

Date: 08/06/2022

Due to circumstance beyond our control we have been informed by the ACCC that we need to notify our customer in regards to the Incident that has occurred. Please read the notice below and advise your customers that the Swift 500 series **(All Models)** are **NOT ALLOWED TO BE USED AUSTRALIA WIDE UNTIL FURTHER NOTICE.** We hope this is a temporary situation, We are waiting on a reply from the ACCC and WA authorities as to what steps are to be taken next. Please be patient once we have more information we will advise through our website. **Please be informed the electrical element can still be used.**

**Swift Appliance Group Pty Ltd is currently liaising with the ACCC, WA DMIRS and Resources Safety and Health Queensland regarding gas explosion safety risks in the 500—Series Caravan Gas Cookers. We will provide more information as soon as possible after conferring with the regulatory bodies. Consumers must immediately cease using the products until tests determine the cause of the explosion and the products are deemed safe.**

\* During question time after the meeting on 19<sup>th</sup> June, someone asked if anyone could recommend a gas fitter. One of the Newcastle group gave this name.

Paul Dunne - Plumber and Gas Fitter 0417 228 476

---

\* Another recommendation for spare parts was Charmhaven Caravan Wreckers Unit 6/14 Arizona Road 02 4394 0114 – phone first as they could be picking up caravans.

---

*HAVE YOU REMEMBERED TO CLAIM YOUR TOLL REBATE FROM THE CANBERRA TRIP?*  
I only did ours last week, first time we have claimed, it was easier than I had expected.

IF YOU ARE TRAVELLING IN ANOTHER STATE –  
MAKE SURE THAT YOU CHECK THEIR RULES FOR TOWING.  
THEY CAN BE DIFFERENT TO THOSE IN NSW.

## CMCA Campaign regarding unfair NSW toll system.

### News

#### CEO Weekly Message

Over the past 18 months, we have been campaigning with the NSW State Government to consider the unfairness in the current NSW toll system. Last month, the Government announced that there will be a formal review of the road toll system in the Sydney area; this review commenced this week. Many members have written to their local State Members of Parliament, and to me, which proved valuable in our communication with the Government.

On Wednesday, I was joined by Ken Newton (Chair of the Australian Caravan Club) and collectively under the umbrella of RV Clubs of Australia (RVCAL) we met with both sides of Government to discuss the key issues around this toll system. We presented the issues followed by a solution to both sides of Government, which we believe could be a fairer system for all RV consumers.

#### Issue 1 – Current Classification

Currently the fee structure is a debacle, with the Government and operator only allowing two categories. However, we are proposing a third category be added between the current two classes which will allow vehicles between 2.81m to 3.5m in height to be recognised for the Recreational Vehicle.

- Class A Vehicles 2.8 metres or less in height and 12.5 metres or less in length.
- Class B Recreational Vehicles between 2.81 metres to 3.5 metres in height or between 12.51 metres 16 metres in length.
- Class C All other vehicles

#### Issue 2 – Vehicle Recognition

Currently, Transurban operate with a scanning program that detects height and length of vehicles. We are also seeking a simple change to have vehicle recognition through the number plate system that refers to registration and identification of that specific vehicle. Having RVs recognised through their registrations is a simple and easy resolution.

We will continue to work on these above issues, as they are major election elements in the lead up to the NSW election scheduled for March 2023. I would like to take this opportunity to thank our many CMCA members who have written to their local Members of Parliament voicing their concerns. I encourage you to continue doing this and forward a copy for myself to keep on hand.

Safe travelling

## DO NOT OVERTAKE TURNING VEHICLE STICKERS

This was a question put to Sergeant Rees – the following is from Transport NSW

1. [NSW Centre for Road Safety](#) >
2. [Staying safe](#) >
3. [Drivers](#) >
4. [Caravan safety](#) >
5. Do not overtake turning vehicle signs

### - [Do not overtake turning vehicle signs](#)

Listen

#### Overall length of 7.5m or greater

A caravan and towing vehicle with a combined overall length of 7.5m or greater is required to have a 'DO NOT OVERTAKE TURNING VEHICLE' sign attached to its rear, if the vehicle and caravan combination intend to momentarily occupy an adjacent lane ('straddle') when making a turn.

Straddling lanes to turn allows the driver additional space to turn safely, especially on tight bends.

'DO NOT OVERTAKE TURNING VEHICLE' signs also require other vehicles to give way.

**Please note:** Straddling adjacent lanes while turning without the warning sign displayed is illegal in NSW.

The requirement to have a 'DO NOT OVERTAKE TURNING VEHICLE' warning sign attached is common across most states and territories to allow the straddling of lanes, and is part of the model law [Australian Road Rules \(PDF, 6.3MB\)](#).

The requirements for NSW can be found in the [NSW Road Rules 2014](#).

**DO NOT OVERTAKE  
TURNING VEHICLE**

#### Preferred sign

The preferred sign should have a minimum area of 0.125 square metres, and the words "DO NOT OVERTAKE TURNING VEHICLE" should appear on the sign in block letters, with a height of not less than 50 millimetres. This sign is the most visible to other drivers, providing them sufficient warning to provide caravans and towing vehicles room to manoeuvre while turning. **Other acceptable signs**

Alternate acceptable "DO NOT OVERTAKE TURNING VEHICLE" signs include one measuring 300mm by 100mm, and another measuring 300mm by 300mm. More information on using and fitting Rear Marking Plates can be found on

**DO NOT OVERTAKE  
TURNING VEHICLE**
